

JCRC Meeting Highlights and Meeting Minutes May 28, 2013

The six members that were present at the meeting start time speculated that a large attendance bonus for this meeting would be a reasonable proposal. Anthony Hall opened the meeting at 7:00, with more attendees present. The Treasurer's report was presented by Vic Koenig. This past month incoming revenues of \$377 were received from dues & grill receipts, and \$242 spent on AMA fees, postage, and copying costs, with \$11,542 available.

Old Business: Per Kingsport YMCA's request, Anthony Hall has donated a War Eagle plane for ceiling display in the youth room of the new facility.

Anthony Hall announced that he is coordinating the Boy Scouts for Aviation demo in August, and requested volunteers to help out.

The FunFest Maker's Fair date for the flying demo is 7/5 from 1-6pm. There will be a Pattern School and contest on June 15th.

Anthony Hall announced that two signs will be replaced with the new TriCities Model Airport name, one at the gate and the other down the road.

New business: A new member has joined the club, Josh Bible.

Vic Koenig presented details of his battery equalizer, that allows for a fully charged battery to be partially discharged by connecting into a discharged battery through a 10W ceramic resistor.

Doug Lindauer mentioned that Hobbytown is having financial trouble, and suggested steering new purchases there if possible.

Motion to close the meeting was made and seconded.

Respectfully submitted,
Michael Lick, JCRC Secretary
