## President's Report

Club!

January and February were warmer than normal and March started out colder and wound up warmer. The bottom line: Spring is upon us, along with good flying weather! This means it's time to get the field in great shape for an active season of flying.

Our Vice President, Tim Edwards, has identified numerous items that we need to fix out at the field. There's a link to the list of items on the website. If you click on the Work Day item in the upcoming events it will take you to Tim's post in our new forum/ bulletin board so you can see what we'll be working on. If you have any additions/ suggestions, let Tim know.

This is the time we need our members to step up. There's an old rule, the 80/20 rule, which says that 80% of the work is usually done by 20% of the people. In the past for our club, sometimes it's been more like a 90/10 rule. So what I'm saying is, don't be part of the group who don't pitch in and help. We all pay our dues and that's great but it shouldn't stop with that. Some of you won't be able to come out because of work, family issues, health, etc. And that's perfectly fine. If you can't come no one will criticize. But most of us CAN get out there and we should.

The work day is scheduled for Saturday, April 22nd at 9am. So let's all plan on pitching in and knock out as many of the items on Tim's list as we can. I've given Tim the go ahead to make a lunch run for all who show up. It ought to be a great day so come out and join the fun!

The weather is looking good so we'll be having our next meeting out at the field on the 25th at the regular time, three days after the work day. We're looking to have a demo of a 3D printer plus other extras. Hope to see a great turnout for both the workday and the meeting!

Roy Edward Davidson, passed away with his loving family by his side, on Saturday, October 1, 2016 in Midland, Virginia.

Roy was born on Jan. 2, 1942 in Jenkins, Kentucky to the late Bramble Owen and Lillian Berniece (Hamilton) Davidson. Roy graduated from West Virginia University with a B.S. in Forestry and worked as a Maintenance Engineer in the Pulp and Paper Industry.

Celebration of Life services will be held on Saturday, April 1, 2017 at First United Methodist Church in Church Hill, TN. If desired, memorial donations may be made to a favorite charity.

Condolences may be sent to: [www.piercefh.com](http://www.piercefh.com)

## Upcoming Club Events

### April

22nd: 9:00 am JCRC Workday at the field

25th: 6:45 pm - JCRC Monthly Meeting at the Field

### Other Events

### May

12th: 5 pm Gates open for Joe Nall Week

30th: 6:45 pm - JCRC Monthly Meeting at the Field

## Vice President's Report

Fellow JCRC Club Members,

I wanted to drop a line about the upcoming workday scheduled for Saturday, April 22nd at 9:00. I don't know if you have had time to look at the list of items planned for that day but if you take a look at the website and click on the work day date it will bring up a list of items that are planned to be worked on. The list can be broken down into three main areas; Painting, Building, and Landscaping. There are other items on the list and I am hoping that YOU can take some time from your day to help us complete the list.

Remember our field is what sets us apart from the other clubs. It is up to us to do what we can to make this the field that pilots want to be part of.

Many people over the years have spent countless hours building what we have today, I want to work with you make sure that we have a field to be proud of.

Thanks,  
Tim

# March 25th Indoor Fly-In, 3D Printed Plane and New Table Design

## JCRC Classified Ads

Bob Cunningham designed pattern trainer, originally for 40 size engines but converted to electric. Cunningham designed it at the behest of a man named Hooker, hence the name of the plane. The plane is receiver ready and includes a 5000mAh 4S battery, it is best described as a Stick with a swept wing. Weight is 4 pounds 10 ounces and it has a brand new Cobra motor. It is an easy plane to land and is either gentle to fly or violent if you like 3D flying depending on your setup.

Price is \$400 Contact Vic Koenig at 423-282-0572

### Next Meeting

April 25, 6:45 pm - JCRC  
Monthly Meeting - Location:  
At the field
