President's Report

Club!

By the time people read this, we should have our newly paved runway. Hooray! As of this writing we will still have grading work to be done to remove the "walls" around parts of the runway but the paved runway will be in place for all to enjoy. We won't declare completely open flying however until that work is done because we don't want to hinder any progress or do flying over people working in the runway area. Keep an eye on updates on the website. The big red 'X' will be removed from the picture of the runway on the home page.

Also, if you come out to the field, check out our brand new sign over the main shelter. The sign was courtesy of Snyder Signs and our own Rod Snyder. Several of our members helped put it up, led by the efforts of Glenn Ross. Thanks to all who helped.

Everything is looking good for our July 22nd inaugural runway celebration event. As mentioned in the last newsletter we're going to have 3 fun events (non-competitive) a little runway dedication ceremony, food, flight demonstrations, flight training for anyone that is interested, and a swap meet. We'll be inviting other RC clubs in the area so it should have something for everyone. Plan on bringing your family and friends, everyone is welcome. This will probably be our largest event of the year so set that date aside, if the weather is bad we have it the following Saturday (July 29th).

I would like to encourage a spirit of participation among our members, sometimes we'll notice something that needs to be done at our field or maybe you've had an idea about something that can be improved. If you have be sure to mention it to one of the club officers or myself and consider if it may be a project that you might be willing to lead. To paraphrase a famous JFK quote, don't ask what your club can do for you but what you can do for your club.

Happy flying! See you at the field.
